To Whom It May Concern,

Advanced Rotors was extremely happy to have selected Charles Allen and his first-class SafeBridge 'team' to negotiate (on our behalf), design and develop our entire Total Employee Benefits package. SafeBridge proved to deliver the very best in breed benefits in each category and all at the lowest possible price points.

We have been very happy with the outstanding service, support and personalized attention which the SafeBridge Benefits Specialists have provided to our employees and their covered dependents. As well, our employees have realized substantial savings through having this new access to superior benefits at significantly lower costs. The consultative and educational approach of the SafeBridge Benefits Consultants has been a real breath of fresh air.

As a valuable bonus, SafeBridge also delivered a vast array of valuable complimentary value-added services to Advanced Rotors and our valued employees.

Advanced Rotors wishes to commend the SafeBridge team, as we look forward to building upon our working relationship with The SafeBridge Benefits Alliance. We would recommend SafeBridge to any company seeking maximum savings and superior benefits for their employees.

Respectfully,

A handwritten signature in black ink that reads "Ronda South". The signature is fluid and cursive, with the first name "Ronda" being more prominent than the last name "South".

Ronda South
